MagniFi Fi-Federal Credit Card

These Most Important Terms and Conditions (MITC) are applicable to the Magnifi Fi-Federal Credit Card (Credit Card/Card) which has been issued by Federal Bank (Bank) in partnership with its co-branding partner Fi Brand Private Limited (Fi). Fi is only an outsourced service provider of the Bank providing marketing and promotion services to the Bank for this Credit Card.

While card holders (you) should go through our detailed [T&Cs](#), these MITC provide a basic snapshot of the critical terms of your Credit Card which you must go through. Both T&C and MITC documents should be read to get a full understanding of the Credit Card conditions. These are subject to change from time to time and the most recent one would be available on this [website](#).

It is accepted that activating the Credit Card from the Fi App and/or clicking on 'Submit' or 'I agree' or similar tab would mean acceptance of these MITC by you.

a. **Fees and taxes payable on Credit Card by you** : The fees and charges detailed above are billed to the Card account as applicable. These would also be stated in the Credit Card statement of the month in which it is charged. Goods & Services Tax (GST) of 18% will be applicable on all fees, interest and other charges at rates as notified by the Government of India from time to time.

Transactions at Fuel Stations: When you use the Credit Card to pay for fuel, you will be levied a surcharge. The fuel transaction surcharge is levied by the acquirer (merchant's bank providing terminal / payment gateway) and may appear separately on your Credit Card statement.

b. Forex markup charges: When you use your Credit Card to transact in a foreign currency, that transaction amount is converted to Indian Rupees (INR) on the settlement date, which could be different from the date of transaction.

If the foreign transaction is not done in USD (US Dollars), the amount will first be converted to USD, and then the USD amount will be converted to INR as per the rate provided by the card network. On this amount, a forex markup fee will be levied, and applicable taxes such as tax collection at source (TCS) would be levied as per the prevailing tax rate. GST will be applicable on the markup fee. If this transaction is refunded or reversed, both the markup fee and GST charges will be refunded. A forex markup fee will also be levied in case of transactions done at merchants located in India but registered overseas.

c. Over limit charges : Overlimit spends shall not be allowed on the Credit Card. You shall be informed via Fi app as and when such facility is made available along with the applicable charges.

d. Late payment charges: Late payment charges would be applicable if the minimum amount due is not paid by the due date. Charge applied is dependent on the total amount due on the Card. These charges may apply to each statement based on the total amount due at that time, if at least the minimum amount due is not paid every month.

e. Auto debit reversal fees: Charge of Rs 250 will be applied in cases where an auto-debit set for repayment of Credit Card dues is affected but fails due to lack of funds as and when such facility is offered by Bank and used by You.

II. Interest free period and interest calculation

Interest free period from the start of the billing cycle date shall not exceed 48 Days. Payment Due Date on your Card is 18 days after the Statement Date (please check your statement for your exact payment due date). Therefore, the interest free credit period can range from 18-48 days depending on your payment due date and date of purchase.

For example, if a statement is generated on 01 May (for the spend period 01 April - 30 April), and due date is on 18 May - interest free period will be 30 days for a purchase

made on 18 April (18 April - 17 May) and 20 days for a purchase made on 28 April (28 April - 17 May).

This period will be free of interest only if all previous dues are paid in full and there is no unpaid balance carried over from previous months. However, if the Total Amount Due is not paid by the payment due date, then there will be no interest free period. For cash advances, interest is charged from the date of the transaction until the date of payment. However, cash withdrawal facilities may be made available at the discretion of the Bank.

The following illustration will indicate method of calculating interest charges:

Illustration 1 - Full repayment not made Consider the

following scenario:

Billing Cycle : 01 April - 30 April

Statement generation date: 01 May

Due Date : 15 May

Annual Interest Rate/APR: 48%

Suppose a customer makes 2 purchases during the cycle, a purchase of Rs 2000 on 05 April and a transaction of Rs 10,000 on 15 April. There are no other transactions in the months of April and May.

Statement Details for the period 1 April - 30 April:

Purchase on 05 April	Rs 2000
Purchase on 15 April	Rs 10,000
Total Due in Statement on 1 May	Rs 12,000
Minimum Amount Due in Statement Generated on 1 May	Rs 600 (5% of total due)
Repayment	Rs 5000 on 10 May

Since the total amount due has not been paid, interest will be charged on a per day basis on the amount overdue. Calculations below:

Amount Due	Period	Interest calculation (Days x Amount x Per day interest Rate)	Interest Charges
Rs 2000	05 Apr-14 Apr	13 x 2000 x 48% x (1/365)	Rs 54.8
Rs 12,000	15 Apr - 30 Apr	16 x 12000 x 48% x (1/365)	Rs 526.0
Rs 12,000	01 May- 10 May	10 x 12000 x 48% x (1/365)	Rs 328.8
Rs 7000	11 May- 30 May	20 x 7000 x 48% x (1/365)	Rs 383.6
Total interest charges			Rs 1293.2 + taxes @18%

Since MAD has been repaid before the due date in the above scenario, late payment charges would not be applicable.

Illustration 2 - Fresh Purchase when there is unpaid due Consider the

following scenario:

Billing Cycle : 01 April - 30 April

Previous statement generated on : 01 April

Overdue in statement from 01 April: Rs 8000

Due date: 15 April

Repayment made: Rs 1000 on 10 April

Annual Interest Rate/APR: 48%

Suppose a customer makes 1 fresh purchase during this cycle, a purchase of Rs 1500 on 20 April and there are no other transactions in the month of April and May.

Next statement generated on 1 May will have the following overdue:

Amount Due	Period	Interest calculation (Days x Amount x Per day interest Rate)	Interest Charges
------------	--------	--	---------------------

Rs 8000	01 Apr-9 Apr	$9 \times 8000 \times 48\% \times (1/365)$	Rs 197.3
Rs 7000	10 Apr - 19 Apr	$10 \times 7000 \times 48\% \times (1/365)$	Rs 191.8
Rs 8500	20 Apr- 30 Apr	$11 \times 8500 \times 48\% \times (1/365)$	Rs 256.2
Total interest charges			Rs 645.2 + taxes @18%

Since the total amount due was not paid in the previous cycle of March, there is no interest-free-period in the month of April. Thus, any new purchase in the month of April will attract interest charges.

III. Billing

a. Billing statements (periodicity and mode of sending): A statement will be shared with you on a monthly basis depending on the bill generation date you select in the Card application process. This statement will contain all payments credited and transactions debited since the last statement, along with details of all charges applicable and details about any active EMIs on the account. Only electronic statements will be shared via email and this will also be available via Fi app.

b. Minimum Amount Due (MAD): Minimum amount due is calculated as 5% of Total Amount Due + EMI debits for the month + any over limit spends + all applicable, unpaid charges and fees including interest charges + GST

A cardholder can choose to pay the total amount due or an amount between total due and minimum amount due.

If you deposit a part of the total amount due or the MAD, the balance outstanding amount payable shall be carried forward to subsequent statements. This amount will attract interest charges until the date of full and final payment. Please note that paying only the Minimum Amount Due every month will result in the repayment stretching over a long period with consequent interest payment on your outstanding balance (as shown in illustration 1 above)

When a repayment is made, it is adjusted in this order:

Billed cash advance (including interest, fees & taxes)

Billed purchases (including interest, fees & taxes)

Unbilled cash advance (including interest, fees & taxes)
Unbilled purchases (including interest, fees & taxes)

Within these, payment is adjusted in this order: Taxes > Fees > Interest > Purchases

c. Refunds/Chargebacks/Reimbursements: You must pay for the transactions billed in the Credit Card statement to avoid any additional charges being levied. Any refunds, chargebacks or reimbursements which are not shown in the Credit Card statement, should not be adjusted or reduced by you from the Total Amount Due (TAD) on your own when making the payment. No merchant refund/cashback/credit due to transactions converted to EMI / cancelled transactions / reversals / promotional cashback will be considered as a payment towards the outstanding of the Credit Card.

Refunds/chargebacks/reimbursements, if any, will be reflected in your Credit Card account, as and when such refunds/chargeback/reimbursement are received and these will be adjusted against your dues in your next Credit Card statement.

d. Method of payment: You will be able to pay outstanding dues via the following methods:

- Send money from your Federal Bank savings account opened via Fi app through electronic modes
- Use other payment methods provided on Fi app
- Use third party applications/methods that allow repayment for the Credit Card through electronic mode

e.
